

## PUBLIC ANNOUNCEMENT

The Miami County Engineer intends to contract for civil engineering services in connection with the replacement of **MIA-CR137-01.94 (Swales Road Bridge No. 01.94)** and **MIA-CR137-02.48 (Swales Road Bridge No. 02.48)**. Engineering firms interested in being considered for a contract to provide the required services should reply with a Statement of Qualifications no later than 4:00 p.m. on November 3, 2023. Statements received after this deadline will not be considered.

Statements of Qualifications should include information regarding the firm's history; education and experience of owners and key technical personnel; the technical expertise of the firm's current staff; the firm's experience in designing similar projects; availability of staff; the firm's equipment and facilities; references; and any previous work performed for the Miami County Engineer.

Statements of Qualifications should be marked "Statement of Qualifications", 2024 Miami County Bridge Package, and transmitted to:

Paul P. Huelskamp, PE, PS  
Miami County Engineer  
2100 North County Road 25-A  
Troy, Ohio 45373  
Telephone (937) 440-5656

As required by Ohio Revised Code 153.65-71, responding firms will be evaluated and ranked in order of their qualifications. Following this evaluation, the Miami County Engineer will enter into contract negotiations with the most highly qualified firm.

The preliminary project description is as follows:

- |   |   |
|---|---|
| <b>Name of Project</b>                      | - 2024 Miami County Bridge Package  |
| <b>Location</b>                             | - Swales Road approximately 450 feet west of Peters Road and Swales Road just west of Creekwood Drive spanning the Boone Creek.   |
| <b>Description</b>                          | - Replacement of two existing bridges approximately 84' long three span prestressed box beam bridges. The proposed replacement structures will be two 110'± overall length three span bridges with a deck width of 32 feet on new abutments. The type of structure may vary due to hydraulic constraints of the sites. Abutments to be capped pile or spread footings depending on the soil findings. The project will include minimal approach work. |
| <b>Estimated Const. Cost</b>                | - \$1,700,000 (\$850,000 for each bridge)   |
| <b>Source of Funding</b>                    | - Local (Miami County)  |
| <b>Project Schedule</b>                     | - Anticipated dates for design startup/completion – December 2023/June 2024<br>Anticipated date for construction startup/completion – June 2024/October 2025  |
| <b>Special Requirements or Restrictions</b> | - Plans to be designed to Miami County standards.   |
