Infrastructure Instructions

Detailed instructions, and templates for OPWC required documentation can be found here. (<https://www.pwc.ohio.gov/Portals/0/Data/Instructions%20Application%20Infrastructure.pdf?ver=2019-10-03-130532-900>)

NOTES & TIPS:

- The buttons available just above these tips provide functionality to edit specific areas of the application, submit the application, remove the application, etc. When applicable, there are edit buttons corresponding to each section of the application ("Edit Project Financials", "Edit Project Information", "Edit Project Schedule", etc.). Using these buttons will make it easier to meet all of the requirements necessary to enter a complete application. If you do not see a particular function, it may be available under an arrow that may appear to the right of all of the buttons. Click the arrow to see which functions are available. If you do not see an appropriate function at all, it means that the function is not available, or not permitted for the current state of the application / project.
- Before an application can be submitted, all required files must be uploaded. When applicable, files can be uploaded at the bottom of this page -- by clicking the "Add Files" button. Just above the files section, there is a list titled "Required Documentation". This list details each of the files that must be uploaded with the application.
- All calculated fields (percentages, totals, etc.) will only be updated after saving any changes.
- If information is not applicable to your application, and not required to be entered, just leave the field blank -- do not enter "N/A" or other similar values.

PLEASE REFER TO THIS ARTICLE (<https://pwcdev-ohio-das.cs32.force.com/pwc/s/news/20Yr00000004Ce6EAE>) FOR MORE HELP SUBMITTING APPLICATIONS

Project Descriptions

Specific Location ⓘ

The project is located in Washington and Staunton Townships within Miami County. Work will take place on Peterson Road Bridge No. 00.05, approximately 250 feet east of County Road 25A. The project work limits will begin at County Road 25A and extend east along Peterson Road for a length of approximately 1150 feet.

Identify The Problem ⓘ

The existing Peterson Road Bridge No 00.05 is a four span prestressed concrete beam structure that spans the Great Miami River. The piers and abutments for this structure consist of both reinforced concrete and capped pre-existing units. The sufficiency rating for this structure is currently 51.3. The structure will be replaced with a three span prestressed I-beam structure with a concrete deck on wall type piers and abutments on drilled shafts and cast-in-place piling.

Project Scope ⓘ

The scope of the project includes the removal of the existing 252-foot long four-span prestressed beam structure with a deck width of 24 feet including the three existing piers and both abutments. A new bridge will be constructed and will be a 299-foot long three-span prestressed I-beam superstructure with a 36-foot wide concrete deck. The I-beams will be resting on two new wall type piers and two new concrete abutments. The approach pavement will be reconstructed to meet the new bridge with the pavement on the existing pavement being removed. New approach guardrail will be installed to replace the existing approach rail. Also, the traffic signal at County Road 25A and Peterson Road will be modified in order to accommodate a wider turning radius at the bridge which includes a new signal pole location and signal head adjustment.

How will you promote this project? ⓘ

Additional Notes from Applicant ⓘ

Project Notes ⓘ

Project Officials

NOTE: Project Officials

You must provide a valid email address for each project official, and each project official must have their own, distinct email address. The application cannot be sent for electronic signing until each official has a valid email address.

*** If you submit an application for signing and do not receive it, ask your OPWC rep to adjust the email addresses and resend the application for electronic signing.

Additionally, the CEO and CFO must be different.

When entering the person's name, enter at least 3 characters to perform a search
