

# Rescue Groups

These are just a few rescue groups there are many others you can check out online by searching “rescues near me” or searching for breed-specific rescues.

You can also post your pet on **Adopt a Pet** and **Pet finder** as a private owner. These websites send automatic emails to potential adopters when animals matching their requirements are posted. Things like being housebroken, good with cats, kids and or dogs, can help get your pet adopted.

Please also remember when reaching out to rescues they are very busy and may take a few days to get back to you. To make the most of your message/email please leave as many details as possible about your pet. Things like age, breed, good with kids, cats, and dogs. Also attach a photo if possible.

- Preble County Humane Society: 937-456-7387
